 - On 5/13 (Monday) I had an exciting phone meeting with Dr. Bowman, the new director of the MPH program. As a public health student, I learned about NU's Planetree partnership through work (Sharp Coronado) and not through NU, which I found concerning. We talked about involving the Bachelors of Public Health, MPH and MHA programs as Planetree is crucial to those career paths.
 - **Current status:** We are working on getting an active student email list so that we can include all of public health. Dr. Bowman mentioned that we will be adding an orientation to the MPH program as well and he would like a representative from the student council to give a talk on Planetree. *Orientation dates and times are TBD.*
